

Zachary Bear[®] has something for everyone. The design list on this page is alphabetical by title. There are over 350 titles with character variations for male, female, couples and family groups. The total number of designs with all these character variations is over 700 designs. We have many designs for sports, occupations, hobbies and family life events that you may not have found elsewhere. We have female versions of lacrosse and hockey. We have designs for baptism, bar mitzvah and other religious events. We have occupations ranging from funeral director to phlebotomist. With so many designs to choose from you can see why we do not have pictures of them all in our flyer. You must also realize that every design we offer may be printed on any product that we make. So once you select a design you may choose from three sizes of matted prints (with or without a frame). You may choose a product to wear like a shirt or hat. We also have home decorator items such as coasters, serving trays, tiles, trivets and more.
